Concordia University — *Montreal, QC*

- Relevant Courses: OOP, Web Programming, Data Structure & Algorithms, Software Process & Practices
- GPA: 3.62/4.3

SKILLS & QUALIFICATIONS

Languages: Java, Python, HTML, CSS, JavaScript
Frameworks & Tools: Figma, Github, Power Query, Power BI, Office Suite
Exposure: React, NodeJS

EXPERIENCE

Referential Data Analyst Intern — Sept. 2025 – Dec. 2025
BNP Paribas CIB — *Montréal, QC*

- Automated the reporting of KPIs for another referential team through Power BI and Power Query, saving approximately 6 hours monthly.
- Controlled and monitored the quality of referential data, ensuring integrity and consistency across BNP's systems.
- Collaborated with technical and business stakeholders, applying problem-solving and communication in a fast-paced environment.

Junior Functional Consultant — Jan. 2025 – May 2025
Vffice Inc. — *Saint-Hubert, QC*

- Worked alongside the technical team to implement custom software solutions in Microsoft Dynamics 365 Business Central.
- Conducted functional testing and prototyping, ensuring accurate system performance.
- Documented workflows and troubleshooted 45+ support tickets for clients, demonstrating ability to translate technical concepts for diverse audiences.

Director of Sponsorship — May 2024 – May 2025
HackConcordia — *Montreal, QC*

- Helped organize ConUHacks IX (800+ participants), Quebec's largest hackathon focused on innovation and teamwork.
- Negotiated sponsorships and pitched to industry partners, strengthening executive communication skills.
- Worked closely with cross-functional teams to align sponsor needs with event goals and ensure a smooth sponsor experience.

PROJECTS

Power BI Report for KPIs | *Power BI, Power Query* — Oct. 2025 - Dec. 2025

- Streamlined manual workflows by automating the reporting of SSI KPIs through Power BI and Power Query.
- Improved reporting accuracy and granularity, providing deeper insights or decision-making.
- Saved around 6 hours monthly for the team through the new automation.

Service Manager Website | *HTML, CSS, JavaScript, Node.js & Express, MySQL* — Sep. - Nov. 2024

- Built a prototype web platform enabling businesses to manage services and customers to book online.
- Designed and styled the frontend (responsive UI, accessibility) and implemented backend routes.
- Integrated a relational MySQL database for service tracking and transactions.
- Worked in a 4-person agile team, coordinating frontend-backend integration.

Personal Portfolio | *React* — Apr. 2025

- Designed and built a minimalist personal portfolio to showcase projects, experience, and contact links using modern frontend tools.
- Leveraging React for component-based structure, CSS for responsive styling and subtle animations.
- Focused on accessibility, clean UI, and intuitive navigation to create a professional online presence.
